

# The New Stoughton Center for the Arts App is Here!

Available for both  
Apple & Android.

Our SCA App was built by JackRabbit Technologies.  
You might recognize the name from logging in to  
your SCA Parent Portal.

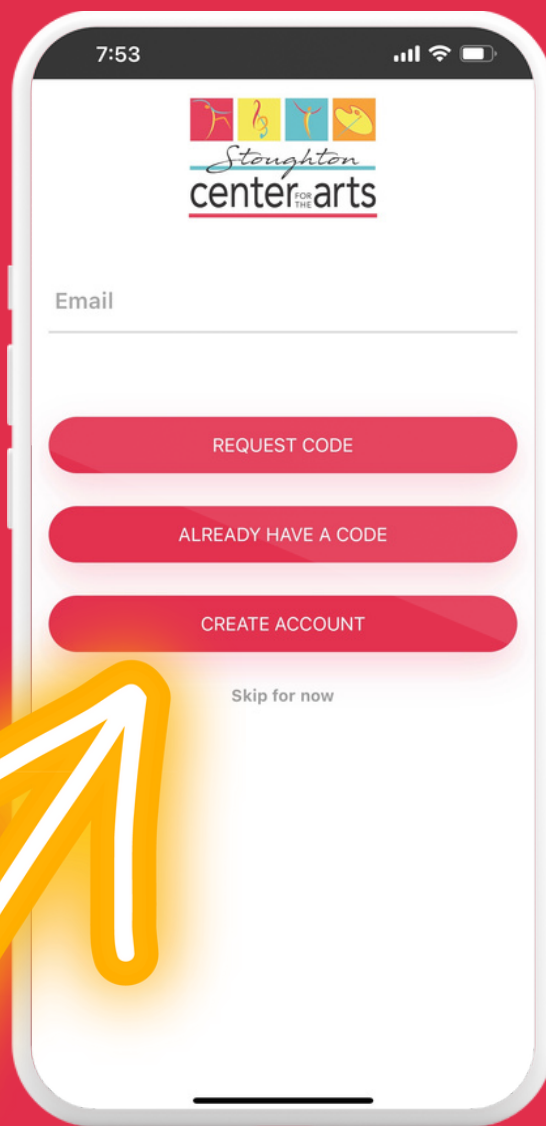

The App is free to download and use. It is ad free.

The App makes regular tasks like registration,  
checking schedules, submitting student absences, and  
making payments easier for our SCA Families.

# Welcome to the App

This part tricked a lot of us when we tested it out.

Don't try to request a code, yet.

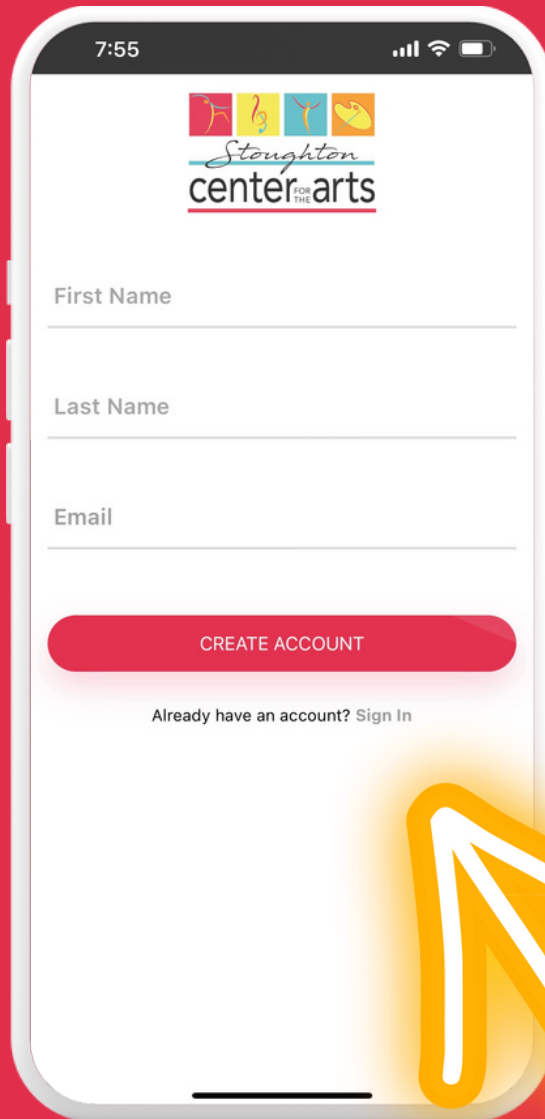

Don't enter your email.

SCA hasn't sent you a code already. SCA doesn't generate the codes.

Click Create Account. You can use parts of the app without it, but you won't get access to the fun stuff.

# First Step

Enter Your  
Name

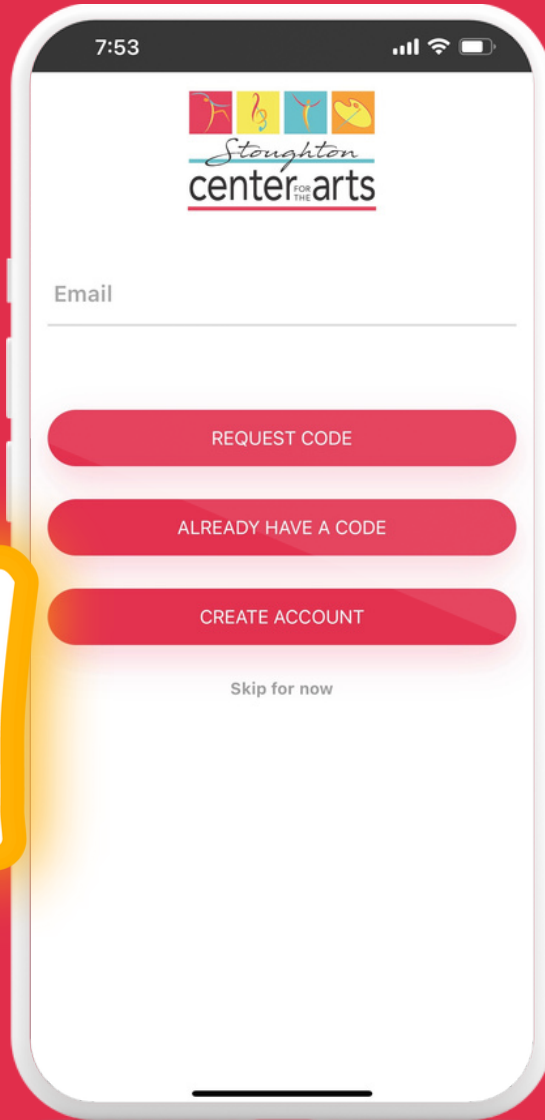

A smartphone screen displaying the account creation form for the Stoughton Center for the Arts. The screen shows the time 7:55, signal strength, Wi-Fi, and battery icons at the top. The logo for the Stoughton Center for the Arts is centered at the top of the form. Below the logo are three input fields labeled "First Name", "Last Name", and "Email". At the bottom of the form is a red button labeled "CREATE ACCOUNT" and a link that says "Already have an account? Sign In". A large, glowing yellow arrow points from the bottom right towards the "CREATE ACCOUNT" button.

Enter Your  
Email

If it feels like they are trying to trick you here, we get it. You don't already have an account for the App. Your Parent Portal Login isn't what they are talking about.

# Second Step

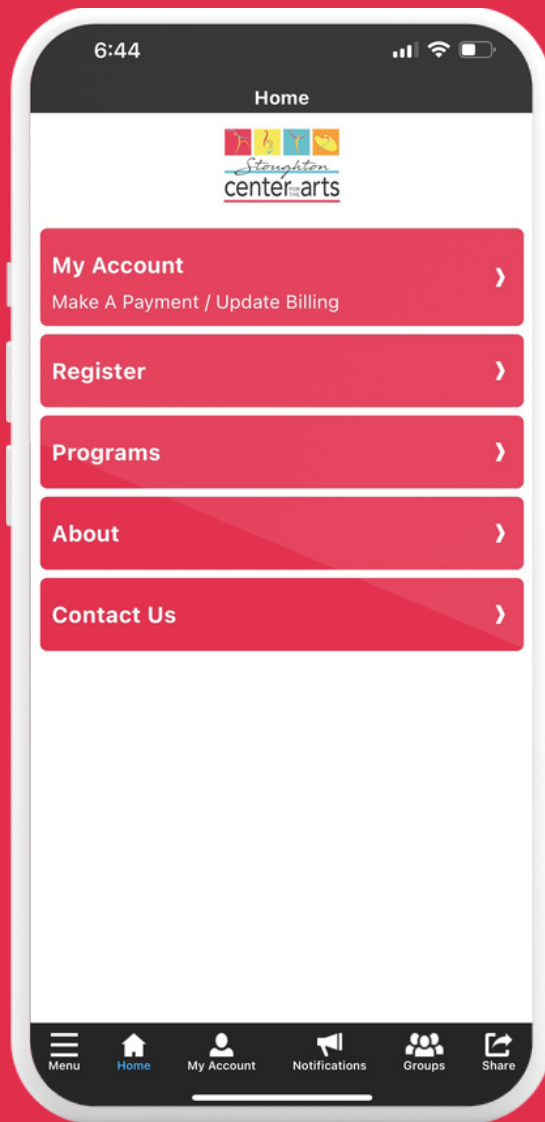

Now You  
Should  
Have A  
Code

And If You  
Dont,  
Request it  
again.

Enter the email that you used to create the account on the app. Enter the code that Mobile Inventor (app creator) emailed to you.  
BOOM! You are in.

Click Around. See How It Works. You Can't Break It.

One of the coolest features is the Notifications feature. SCA can send out notifications to the whole studio, certain classes, etc. with this feature. We are doing everything we can to keep you up to date.
